

HawkEye

A new diagnostic tool for Land Rover vehicles

At last a diagnostic tool that is truly portable and simple to use by the home or professional mechanic. Bearmach's HawkEye is an essential tool for Land Rovers and it is the electronic equivalent of a spare tyre – it will help you to identify problems quickly and accurately so you can initiate an immediate fix to keep the vehicle on the road.

“...it's the electronic equivalent of a spare tyre”

- Robust and self contained hand-held unit
- Does not require laptop or PC
- Easy, intuitive and user friendly
- Quick response
- Read fault codes
- Clear fault codes
- Live data
- Forced outputs/actuators
- Programming (specific applications only)
- Free unlock code for one Land Rover vehicle type
- Can be 'unlocked' to be used with other Land Rover models
- Ideal for DIY enthusiasts as well as specialists

HawkEye

A new diagnostic tool for Land Rover vehicles

Designed and manufactured exclusively for Bearmach by Omitec Ltd using their experience in Land Rover Diagnostics.

The HawkEye diagnostic tool is extremely robust and comes with its own storage pouch. The keypad has large, well defined buttons and it is powered directly from the vehicle.

The clear graphical display is easy to read and features on-screen prompts to provide a quick response. The kit is supplied with a standard J1962 cable. Optional cables may be required for specific systems, please contact Bearmach for details.

The specific applications will allow you to access information from your vehicle. Functionality includes **READ** and **CLEAR** fault codes, **LIVE DATA**, **ACTUATORS**, Electronic Control Module Data and **PROGRAMMING** is available with some applications (see list opposite).

When you purchase the HawkEye diagnostic tool you are automatically entitled to your **FREE** unlock code which will enable you to use the product on one Land Rover model of your choice.

You can, however, upgrade at any time to include more than one Land Rover model on your diagnostic tool, simply contact Bearmach on +44 (0)2920 856550 or www.bearmach.com to obtain a new unlock code.

Hawkeye *...is the electronic equivalent of a spare tyre!*

At Bearmach we sincerely believe the Hawkeye is every bit as useful as carrying a spare tyre with you. It's compact enough to carry in the glove-box at all times particularly if you're on a long holiday journey or off-road adventure.

Modern vehicles have advanced engine management systems and hi-tech developments in suspension and braking systems – and so there's a host of problems that can only be properly identified using expensive equipment at the main dealers.

Hawkeye is an inexpensive solution that gives the home mechanic or small independent garage the ability to diagnose most common faults. Once the fault is repaired, Hawkeye can be used to verify the work and clear the fault codes.

The Hawkeye Kit (BA 5070) includes:

- Hawkeye Diagnostic Tool
- J1962 Cable (BA5071)
- Zippered protective pouch
- Quick Reference Guide
- One vehicle Unlock Code

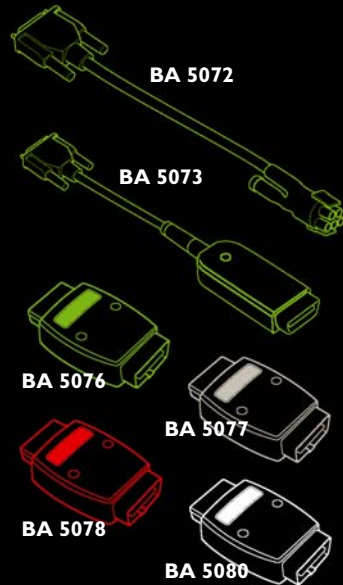

You can also order:

- BA 5075 - Additional vehicle unlock code
- BA 5075a - Full unlock code

Should you require a different cable/adaptor (as shown in the Application list) please order:

- BA 5072 - Land Rover Lucas 14CUX cable
- BA 5073 - Land Rover Air Suspension cable
- BA 5076 - Land Rover green adapter (10AS)
- BA 5077 - Land Rover grey adapter (Teves MK25 EWS 3)
- BA 5078 - Land Rover red adapter (Range Rover L322)
- BA 5080 - Land Rover black adapter (Med/Low speed CAN)

Refer to the Application List inside to see the range of functions available for each vehicle

Vehicle Application List

This chart shows the vehicles and functions currently available — but as Bearmach operates a policy of continual improvement please check back with us if the vehicle you require is not listed here.

NOTE: A standard J1962 cable is included in the Hawkeye kit but some applications (indicated below with an asterisk*) require an additional cable or adapter which is available from us as an optional extra.
