

**Part # TF167****Terrafirma wading Kit – V8 Engines – Defender 9-/11/130, Discovery 1 & 2 and Range Rover Classic****Axle breathers.**

Remove the standard Land Rover axle breathers from the front and rear axle (should be a 14mm head on a banjo bolt.) these are located to right hand side of the diff on the front and the left hand side on the rear axle.

Remove all old breather pipe.

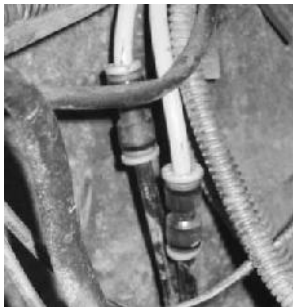

Fit the new 90° fitting into position on the axle ensuring that it is fully tightened down. Push the 6mm pipe into this, once secure it should not be easily removed unless the blue ring is depressed at the same time.

Route the pipe to the area at the base of the snorkel.

**Gearbox breathers.**

These are normally located on the bulkhead to the left or right of the engine.

The breathers will have a hooked section at the top, cut the pipe underneath this hook. Fit the straight connector to the pipe and push the 6mm pipe supplied in to the other side of this fitting.

**4-1 connector.**

Position the 4-1 connector near the bottom of the snorkel or close by. Take the four pipes from the axle and gearbox breathers and cutting to length push into the 4-1 connector. Take the 8mm pipe and fit into the 4-1 connector. The 8mm pipe can now be ran up the side of the snorkel to a comfortable wading depth, the pipe is flexible enough to allow the top to be bent over.

**Engine.**

Very few V8's like water as the main problem is the electrics getting wet, we suggest that you use a good fitting ignition lead set with distributor cap and good quality spark plugs. Also apply some silicone sealer, which once sprayed over the vehicle electrical connections can create a relatively water proof coating.

**Note: when cable tying do not pinch the pipe as this could restrict air flow. You can now enjoy wading without the worry of damaging your axles or gearbox, but be sure to check the pipes for blockages regularly.**

WARRANTY & DISCLAIMER - TerrafirMa products are warranted free from defects in materials and workmanship for a period of 12 months from the date of retail invoice. TerrafirMa does not warrant that the products manufactured or marketed by it comply with the laws of the country where those goods are purchased or used. It is the sole responsibility of the purchaser to ascertain whether products being purchased, or the fitting of those products to any other object, comply with local laws. This warranty covers structural defect and workmanship but does not cover finishes, labour charges for removal or refitting, freight costs, accident damage, misuse or abuse, damage due to incorrect or improper fitment or application, modified product, faulty design or consequential damage of any kind. Damage or defects caused by collision, alteration, improper installation, road hazards, adverse conditions or usage for any other purpose other than normal private usage are not covered by this warranty. TerrafirMa shall not be liable for any other claim relating to the use of the product and any indirect special or consequential damage or injury to any person, company or other entity. All claims must be accompanied by the original retail invoice and should be submitted to the supplying Allmakes 4x4/TerrafirMa distributor. This warranty covers only the replacement of the product or part concerned. The decision remains solely at the discretion of Allmakes Ltd. The information contained in this catalogue was correct at the time of going to press. Allmakes/TerrafirMa and its associated companies reserve the right to alter the range and any product specifications without notice. Always consult your Allmakes/TerrafirMa distributor for the latest product information and specifications. The TerrafirMa range of products is constantly being evaluated for enhancement and improvement to make sure the level of quality and performance is as expected.
