Exhaust System

Borla Performance Stainless Steel Exhaust

The best exhaust system you can buy for your Rover, for several reasons. Aircraft-quality T-304 stainless steel construction is lighter and stronger than conventional steel and is used inside and out (not just a stainless coating). It’s fully welded without crimping for an unimpeded flow-through, with slip-fit connectors for an easy, secure fit. Maintenance-free sound absorbing materials maintain low dBs, protects against burnout and reduces shell temperature. Each Borla exhaust is precision-tuned to your vehicle to actually improve engine performance. GUARANTEED for 1 million miles—the best in the business! Legal in all 50 states. It all adds up to make this the last exhaust system you’ll ever buy for your Rover!

Borla Stainless Steel Exhaust System - Discovery I (9927)

Falcon Performance Stainless Steel Exhaust

If you want a high-performance, stainless steel exhaust without the “high-performance” sound, the Falcon is your best choice. All Mandrel bends insure free flow of exhaust gases, with no back-ups or gaseous odors, and the top-quality stainless steel exterior is guaranteed for the life of your vehicle. The Falcon exhaust is a quiet, high-performance, custom-fit stainless steel exhaust at a price less than the soft steel OEM system! Easily installed at your local garage.
