Emergency Breakdown Kit
This kit was actually created out of necessity, when we were left stranded on a back road in Vermont. For the most common roadside repairs, this smart kit could mean the difference between being stranded and being on your way. Kit includes: Distributor Cap, Coil, Spark Plugs, Fuel Filter '87-'90, Belts: A/C, Steering Pump, & Water Pump '87 on, Fuse Assortment (Spade Type), Bulbs: Stop/Tail Light, Flasher Front/Rear, Side Reflector '87 on, Rotor Ignition '87 on.

Emergency Breakdown Kit '87-'90 (9225)

TECH TIP:
Engine Misfire, Stumble

Engine misfire or stumble under acceleration or load may be caused by a poor connection in the diagnostic connector under the right seat, adjacent to the ECU on the Range Rover.

The pins on the female side of the plug tend to open up and need to be crimped tighter. Clean the pins with contact cleaner and reconnect. Secure with a nylon wire tie to prevent a recurrence.

PRICES SUBJECT TO CHANGE.
